Sir:

In response to the Restriction Requirement dated February 26, 2002, please consider the following remarks.

The Examiner asserts that that the present application contains 3 distinct inventions, grouped as follows:

04/02/2002 CNGUYEN 00000082 09621781

01 FC:115

110.00 GP

Group I – Claims 1-14, drawn to an isolated nucleic acid comprising a PEG-3 promoter, classified in class 536, subclass 24.1.

Group II – Claims 15-23, drawn to a method for identifying an agent which modulates PEG-3 promoter activity, classified in class 435, subclass 6.

Group III – Claims 24-37, drawn to a method for treating cancer in a subject comprising administering a nucleic acid, classified in class 514, subclass 44.

The Examiner has required that Applicants restrict the prosecution of this application to one of the foregoing groups. In response, Applicants elect to pursue Group I, which comprises Claims 1-14 as they are drawn to an isolated nucleic acid comprising a PEG-3 promoter in this application, without traverse, and without prejudice to the prosecution of the subject matter of the non-elected groups in other patent applications.

Applicants believe that no fee is required in connection with this communication. However, if any fee is required, please charge such fee to our Deposit Account No. 02-4377. Two copies of this sheet are enclosed.

Respectfully submitted,

BAKER BOTTS L.L.P.
